

K-RITE Assessment

Submitted by- Amaresh Sarma

For this assessment I've used HTML CSS and Javascript and mix of tailwind css. The reason for choosing tailwind css is that it helps in building UI rapidly as I had very less time and the assessment layout was quite a big design which had many small parts so for the time being I've stucked with tailwind css.

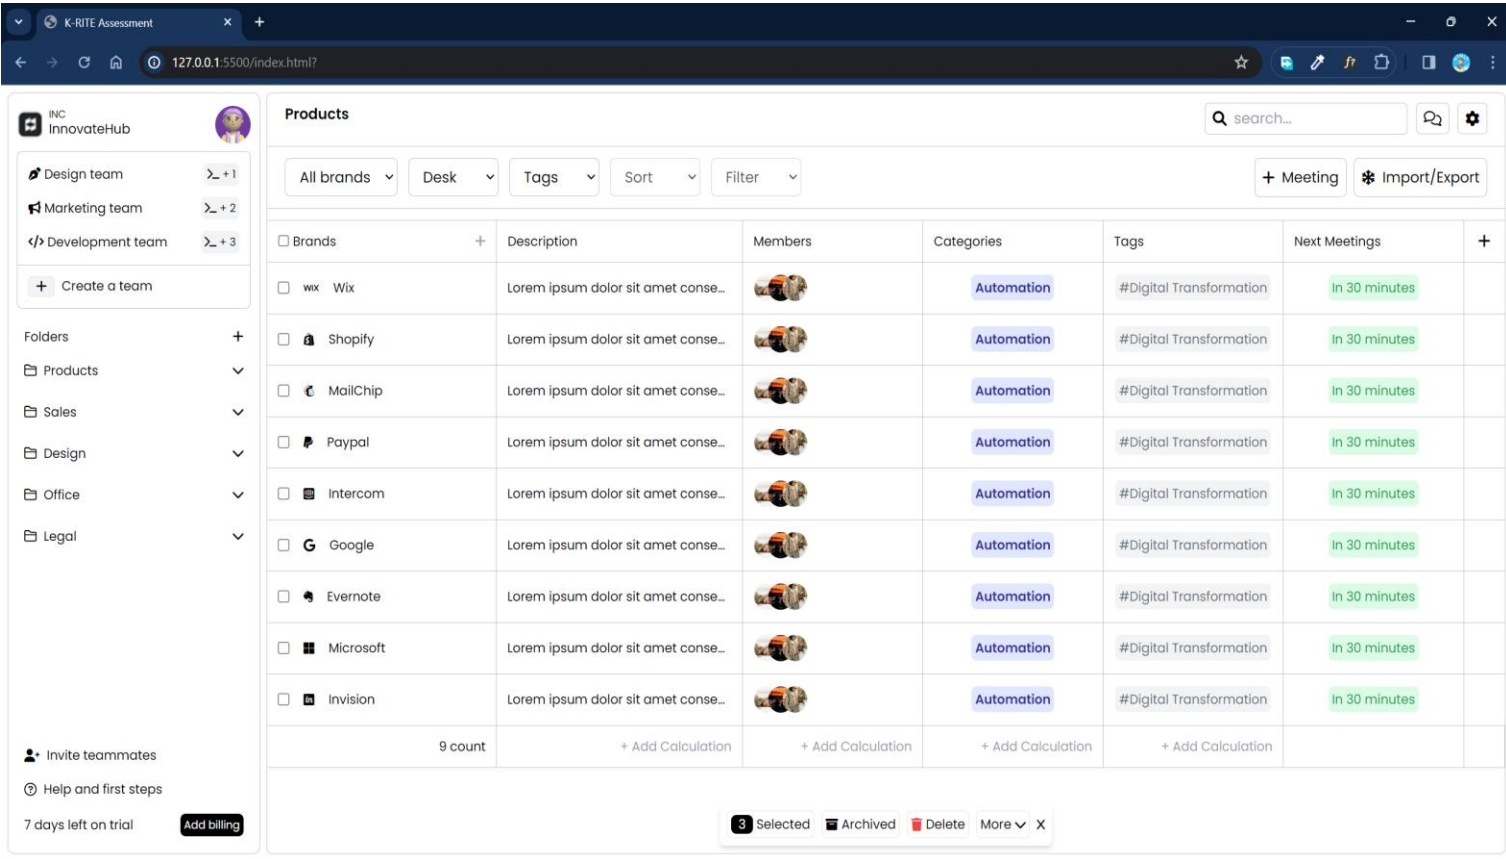

Here is the link to zip file which includes all the necessary code

<https://drive.google.com/file/d/1qjztiDleZcLyNTG5MULXmuHiz0JbpGmR/view?usp=sharing>

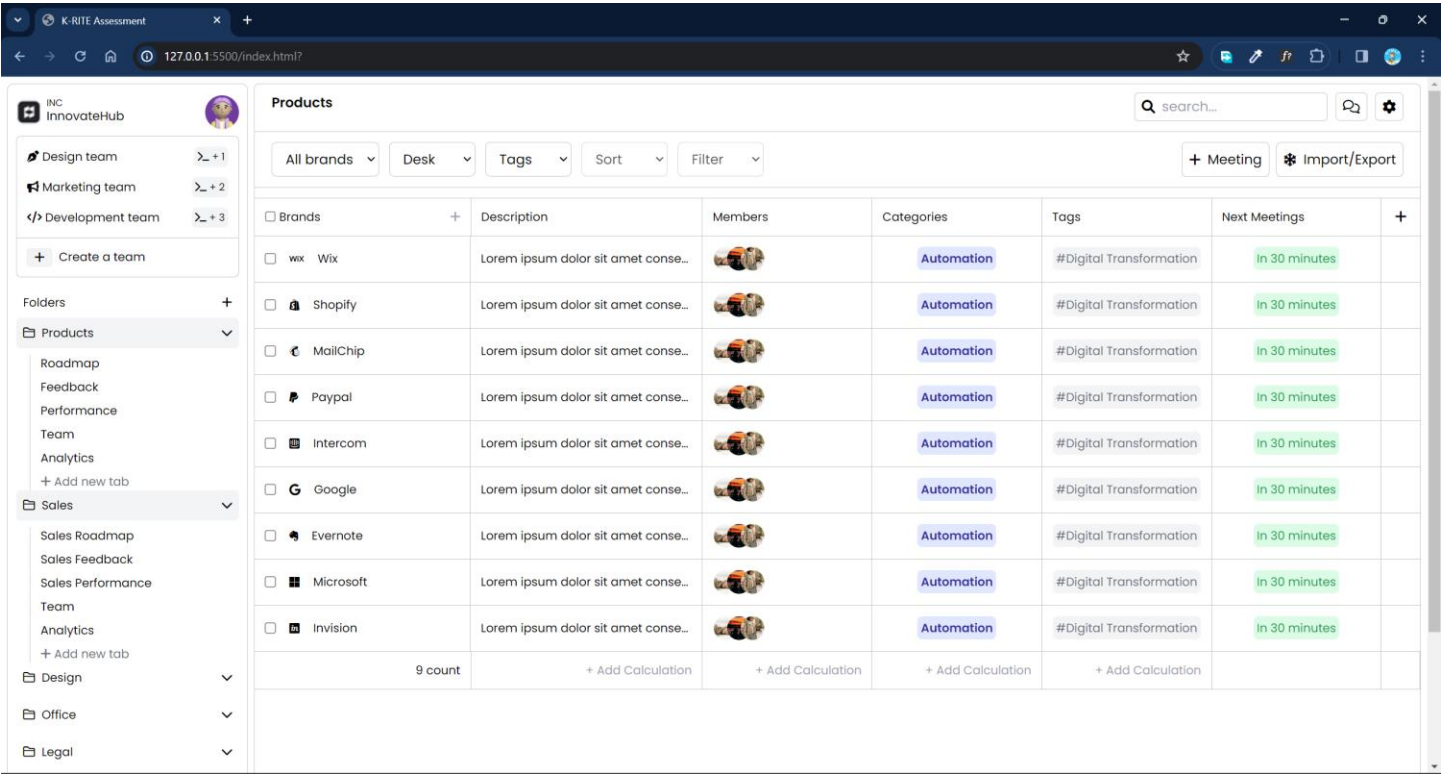

In order to run this assessment you need to download the necessary zip file and then just open the file named "index.html" and you are good to go with.

In the next Section of this PDF file you'll find all the necessary snapshots which all the aspects of the assignment.

Initial Desktop Layout:

Desktop layout with interactivity which includes opening of menu in the sidebar

Desktop layout with Search feature
